

8. Work by firm or joint-venture members which best illustrates current qualifications relevant to this project (list no more than 10 projects). – **Projects below showcase experience of MSMM staff members.**

a. Project Name & Location	b. Nature of Firm's Responsibility	c. Project Owner's Name & Address and Project Manager's Name & Phone Number	d. Completion Date (actual or estimated)	e. Estimated Cost (in thousands)	
				Entire Project	Work for which firm was/is responsible
<p>OCPR contracts – (i) Support of the Southeast Louisiana Flood Protection Authority–East, (ii) Lake Borgne Basin Levee District Pump Station 6 support, (iii) OCPR Project Management Support.</p>	<p>This project involved post-damage assessment and coordination for Hurricane Isaac (August 2012) in impacted areas of coastal south Louisiana. The project required quick mobilization because of its emergency nature. As well, due to the many agencies owning/managing the damaged infrastructure and multiple funding sources involved in damage assessment and rehabilitation, the project required constant communication among and significant coordination with various local agencies (levee districts, Parishes, Emergency Management offices, facility operators), OCPR and the Corps of Engineers. Project tasks included post-damage assessment & coordination, coordination with Southeast Louisiana Flood Protection Authority-East (SLFPA-E) on inspector activities and priorities, support to SLFPA-E Hurricane Isaac 'Lessons Learned' sessions, Project Management support and coordination, and project status updates to Lake Borgne Basin Levee District (LBBLD) Executive Director and staff.</p>	<p>Louisiana Coastal Protection and Restoration Authority Project Management Branch 450 Laurel Street 1210-O N. Chase Tower Baton Rouge, LA 70801 Dustin White 225-342-4512</p> <p>Southeast Louisiana Flood Protection Authority-East 2045 Lakeshore Drive Room 422 New Orleans, LA 70122 Robert A. Tuner, Jr. Regional Director 504-280-2411</p>	2012		\$32
