

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT

20. EXAMPLE PROJECT KEY NUMBER

Present as many projects as requested by the agency, or 10 projects if not specified.

21. TITLE AND LOCATION (City and State)		22. YEAR COMPLETED	
<b>CDBG Environmental Review, Jefferson Parish, LA</b>		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
		<b>2013</b>	<b>2014</b>
23. PROJECT OWNER'S INFORMATION			
23a. PROJECT OWNER	23b. POINT OF CONTACT	23c. TELEPHONE NUMBER	
Jefferson Parish Department of Community Development	Ann Herring GOHSEP State of Louisiana Disaster Recovery Unit	225-219-9600	
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, cost)			

MSMM worked on with multiple concurrent US HUD Community Development Block Grant (CDBG) funded projects for recovery from damages due to Hurricanes Gustav and Ike of 2008. This experience included NEPA documentation, agency coordination, close communication with State CDBG/LRA, and numerous coordination activities with multiple facility owners and grant managers. Due to federal funding, NEPA documentation (environmental review record or ERR) was required, which was conducted as ERRs per HUD/CDBG regulations. The projects were located both within unincorporated Jefferson Parish as well as within its incorporated municipalities (Grand Isle, Gretna, Harahan, and Lafitte). The types of project included roadways (repair of more than 100 streets in one municipality), sanitary sewer lift stations, wastewater treatment plant effluent pump stations, emergency generators, stormwater detention ponds, public auditorium rebuilding, senior art gallery renovation, and stormwater drainage improvements. The total amount of funding was \$27,143,935, which included eleven (11) projects: (i) Eastbank WWTP, (ii) Helios and West Napoleon sewer pump stations, (iii) Street repairs in Grand Isle, (iv) Water infrastructure repairs in Westwego, (v) Stormwater detention pond improvements in Gretna, (vi) Effluent pump station improvements in Harahan WWTP, (vii) Effluent pump station improvements in Harvey WWTP, (viii) Drainage improvements in Baratara, (ix) Drainage improvements in Lafitte, (x) Rehabilitation of Senior Art Gallery in Lafitte, (xi) Rebuilding of auditorium in Lafitte.

Professional Service Highlights
<ul style="list-style-type: none"> <li>Projects funded by CDBG and administered by GOHSEP's Disaster Recovery Unit (DRU) under US HUD's Hurricanes Gustav/Ike Disaster Recovery Grant Program.</li> <li>Worked closely with GOHSEP's DRU Environmental Manager and with Jefferson Parish Department of Community Development to obtain environmental clearances.</li> <li>Significant use of GIS Shape files and database.</li> <li>Meeting and coordinating with the State's GOHSEP/DRU staff (grant and environmental), and FEMA staff.</li> </ul>

Project Highlights
<ul style="list-style-type: none"> <li>ERRs for 11 concurrent projects.</li> <li>Significant coordination with Parish, individual municipalities, design engineers, Parish's administrative and grant consultants, and HUD/CDBG.</li> <li>Levels of environmental review ranged from exemption, through categorical exclusions, to environmental assessments.</li> <li>Significant coordination with FEMA's environmental staff and PW staff to resolve environmental clearance issues.</li> <li>Successful securing of environmental clearance for a project that was under LDEQ's Compliance Order deadlines.</li> </ul>
<b>Construction Cost = \$27 million</b>
